

# Allure Glow Hazard Identification and Evacuation Fixtures

*Making light of a situation.*

## Allure Glow Luminous Evacuation Signage

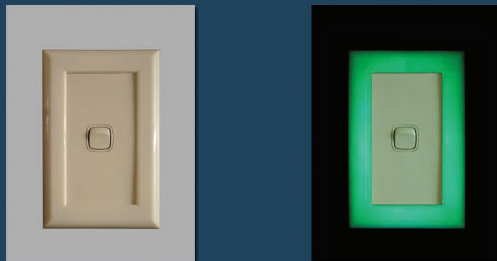

Allure Glow luminous signs offer glow in the dark benefits beyond standard evacuation and fire control signage. Produced on aluminium, Allure Glow signs are functionally sound and extremely sturdy. This range of luminous signage produces an effective means of emergency guidance both in light and dark conditions without the need for electrical power. Our signage meet all the necessary ISO standards. Allure Glow evacuation signage is made to suit and meet the requirements of many authorities around the world. The signs utilize the internationally recognized running man symbol which is being adopted globally. Customised plastic signage is also available.
